

Use the Klipsch RW-1 Wireless Speakers as wireless rear surrounds with a Klipsch RSB-14 or RSB-8 Sound Bar. Just follow these 3 easy steps:

1 UPDATE THE RSB-8 / RSB-14 SOUND BAR

Download the firmware file for your sound bar using the links below.

[RSB-8 Firmware](#)

[RSB-14 Firmware](#)

Follow the instructions at the links below to update the firmware for your sound bar.

[RSB-8 FirmwareUpdate.pdf](#)

[RSB-14 FirmwareUpdate.pdf](#)

2 UPDATE THE RW-1 WIRELESS SPEAKER

Install the Klipsch RW-1 "Stream Utility" Update App on your mobile device using the links below. Open the App and follow the instructions to update the RW-1.

3 SETUP SURROUND MODE

Once all updates are completed, the RW-1 can be setup as rear surround speakers with the RSB-8 or RSB-14. Install the Klipsch Stream App on your mobile device using the links below. Open the App and follow the instructions.

All speakers must be up to date to work in surround mode.
