

klipsch forté

The new KLIPSCH® FORTÉ® is a most exceptional speaker system representing years of research and development in the KLIPSCH laboratories.

The FORTÉ has a smooth, well-extended frequency response to give a big, full sound.

Its high sensitivity gives you high output and breathtaking dynamic range.

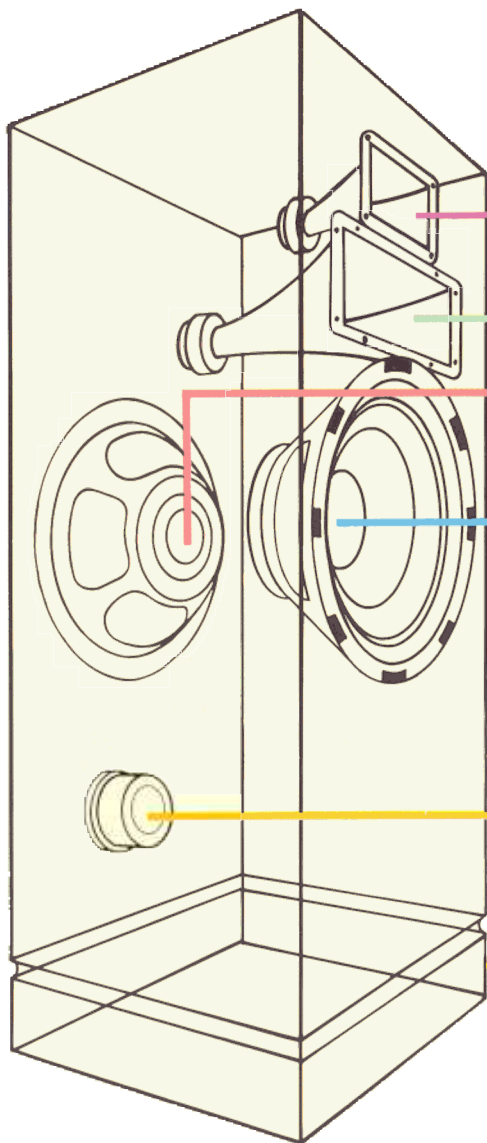

The cabinet, as beautiful as the music it reproduces, takes up little floor space and allows for easy speaker positioning. And it's offered in a variety of beautiful wood veneers to complement the decor of your home.

Inside and out, the new KLIPSCH FORTÉ reflects your good taste in music and the art of its reproduction.

klipsch forté

meeting the demands of
audio today, setting the
standards for audio's future.

■ New KLIPSCH® designed high frequency horn/driver assembly handles more power, delivers wider bandwidth, and gives you smoother response. You get a sharply focused stereo image and breathtaking dynamic range. You'll feel as if you can touch the music while it is touching you.

■ One secret of the FORTÉ's powerful, well-extended bass is found in the use of a rear mounted passive radiator. This passive radiator operates in conjunction with the front mounted 12" (30.5 cm) woofer and lowers bass response to a solid 32 Hz.

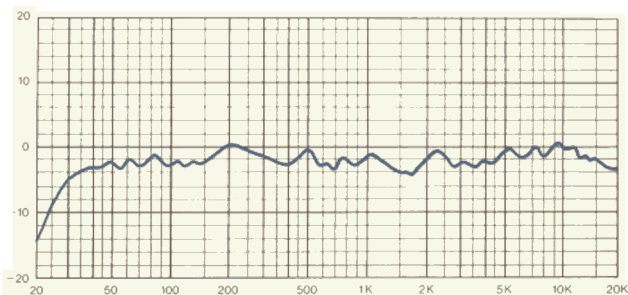

■ The cabinet of the FORTÉ provides immediate evidence of construction quality. This cabinet is meticulously crafted from your selection of genuine wood veneers. Each pair is matched for color and grain structure of the wood. One tiny flaw and the pair is destroyed.

■ The FORTÉ has a built-in riser base which lifts the system to the proper height for the best stereo effect and keeps the system coupled to the floor for maximum bass response.

■ Many tests have proven that midrange frequencies are the most critical to the enjoyment of music. For the important midrange area, KLIPSCH engineers developed a special compression driver/horn for rugged power handling capability, wide dynamic range and exceptionally smooth response. This midrange driver assists the FORTÉ in delivering an accurate, three-dimensional stereo image.

■ KLIPSCH engineers relied on proven principles combined with innovative technology to develop a new 12" (30.5 cm) woofer specifically for the FORTÉ. This exceptional new woofer assures you of clean, tight bass and unparalleled reliability.

■ The input panel of the FORTÉ is built in conjunction with the crossover network of the system. Incoming electrical information is immediately sent to the proper driver.

On-axis frequency response. Measured at a distance of one meter. Zero equals 100 dB.

Specifications:

BANDWIDTH: 32 Hz – 20 kHz \pm 3 dB
SENSITIVITY: 98 dB SPL, one watt one meter
NOMINAL IMPEDANCE: 8 Ω
POWER HANDLING: 100 watts maximum continuous
ENCLOSURE TYPE: Vented box (via drone), three-way system

DRIVE COMPONENTS:

K-75-K tweeter,
 K-53-K midrange,
 K-23, 12" (30.5 cm) woofer
 KD-13, 12" (30.5 cm) drone
WEIGHT: 56 lbs./25.4 kg

DIMENSIONS:

Height: 35-3/8" (89.9 cm)
 Width: 16-1/2" (41.9 cm)
 Depth: 12" (30.5 cm)
