THE TANGENT THEATER SPEAKER RENDERS A TOTAL SENSORY EXPERIENCE WITH BOTH HOME THEATER AND HOME AUDIO CAPABILITIES. BY CONTROLLING DIRECTIVITY, THE TANGENT THEATER CAN SERVE AS A CENTER CHANNEL, CONNECTING THE VOICES OF THE CHARACTERS ON YOUR SCREEN WITH THEIR VIDEO IMAGES. AT THE SAME LEVEL OF PERFORMANCE, THE TANGENT THEATER REPRODUCES THE MOST DEMANDING AUDIO RECORDING WITH LOW DISTORTION, HIGH EFFICIENCY AND WORLD FAMOUS KLIPSCH SOUND.

THE FOCUS OF SOUND AND VISION.

PREMIUM PERFORMANCE

Designed with home theater in mind, the Tangent Theater speaker is magnetically shielded to prevent distortion of your television picture so that it can be used as a center channel, mains, or surrounds.

ENGINEERING BY KLIPSCH

The D'Appolito configuration of the Tangent Theater speaker, combined with a horn-loaded tweeter, provides a center point source, bringing audio and video together for true theater dynamics. The ferrofluid cooling system within the motor structure of the tweeter's compression driver enables the Tangent Theater to reproduce natural sound with very high power output.

CROSSOVER NETWORK

The Klipsch Tangent Theater incorporates 3-pole high pass filtering in the crossover networks. Interference between drivers is reduced, which improves articulation and reliability of the tweeter.

TANGENT THEATER

BANDWIDTH:

45-20 kHz \pm 3 dB

SENSITIVITY:

95 dB SPL @ 1 Watt/1 Meter

NOMINAL IMPEDANCE:

8 Ohms

POWER HANDLING:

75 Watts continuous, 375 watt music peaks

ENCLOSURE TYPE:

2-Way system, vented box

DRIVE COMPONENTS:

Two K-1014-KV 6 1/2" (15.24 cm) Woofers
K-87-KV ferrofluid-cooled compression driver

CROSSOVER FREQUENCY:

1800 Hz

WEIGHT:

26 lbs./12.73 kg

DIMENSIONS:

Height: 23 1/8" (59 cm)

Width: 10 7/8" (28 cm)

Depth: 9 1/2" (24.13 cm)
